

ZAMAN ASSOCIATES

COMPANY PROFILE:

ZAMAN ASSOCIATES is an enterprise of Import-Export, Manufacturing, Sales & Marketing, Distribution as well as developing the business sector of Electrical-Electronics & Solar Power.

We are the Exclusive Agent for ANDELI brand MCB, MCCB, RCCB, MPCB, SPD, ACB, VCB, AC Overload Relay, Frequency Inverter, Soft Starter, LCD display Din rail type KWH meter, Automatic Voltage e Stabilizer, Welding Machine and so on. ANDELI is the largest manufacturer in China which has worldwide brand image even in China local market. Also we are the Exclusive Agent of SY (Sheng Ye) brand PFC capacitors, PFC Relay & Reactor, SANAI brand LT-CT, HT-CT & HT-PT for both 11KV & 33KV. SAIPWELL Brand Solar Charge Controller as well as street light Charge Controller including all other solar products.

We are also manufacturing & marketing LT/HT Switchgear, PFI Plant, MDB, SDB, Star Delta Starter, DOL Starter, Industrial Electric Wiring & Servicing, HT Metering unit & CT - PT, Package Type Sub - Station, Busbar Trunking System (BBT), Motor Speed Controller, Industrial Automation etc.

Zaman Associates & XD High-Tec (The Schneider & Siemens authorized brand switchgear manufacturer) are the business partner for jointly work together in projects related to the branded or customized Switchgear of Low Voltage (LV) Series to Medium & High Voltage, electrical distribution and transmission equipment supply, planning, designing, manufacturing, installation, commissioning as well as after sell-service. We have wide range of experience on completed substation & Switchgear. XD High-Tec is certified switchgear manufacturer. We commit to serve the best to our clients who trust on quality.

Our each product has individual serial number to easy tracking for warranty purpose. All the products are reliable to ensure maximum safety. Most of our Brand products are well certified by reputed organizations of testing & certifications. Besides we are promoting our own Brand SOLAX which is for Modern Touch switch & Sockets, Switch Sensor, Control Switch for solar, wiring accessories & LED lightings also are focus under the SOLAX brand.

SOLAR'X POWER is a sister concern of Zaman Associates. It has also performed sales, marketing, distribution & supply on behalf of Zaman Associates. For quality electrical and industrial power products with guarantee and reliability ZAMAN ASSOCIATES is the name behind you. You may find our Brand Authorized Chain Distributor around the country.

It is our goal to engage much people to use quality electrical product to ensure maximum safety.

Our Business Partner-

Our Sub-Station Product & Services

Our Professional designers and engineers are over the years of award-winning experience in the designing of Distribution & Power Transformer, Switchgear & Control panels. We deliver top –quality Transformers and Substation Equipment at price the equivalent commercial firms can't match. We're experts at managing complex power projects, bringing 99.99% of them to “launch date” on time and budget. Our design department is dedicated to develop the diversity of products as per requirements of the market.

● Transformer

- Single Phase Transformer
- Three Phase Distribution Transformer
- Power Transformer

● Others

- Lighting Protection System
- Electromechanical Trunkey Installation of Industrial & Commercial Project

● Strength Of Zaman Associates

- Zaman Associates stands for eco-friendly business environment.
- Corrective measures are taken at every step to ensure uncompromising quality
- Products made of best quality materials that meet customer's expectations.
- Advanced testing lad and factory equipment managed by experienced engineers.
- Continuous improvement of product quality & service through smart R&D.
- 24/7 promising support.

Transformer

- Low loss and highly efficient
- Cold rolled grain oriented (CRGO) silicon steel with high permeability are used.
- Transformer tank is filled with oil under vacuum thus improving the complete penetration of insulating liquid.
- Due to copper's inherent high conductivity, ductility, and strength, All Transformers are manufactured with pure electrolytic copper only.

Our Transformer are-

- Friendly to the environment
- Safe
- Economical
- Reliable
- Moisture Resistant

LT Switchgear

Low Tension Switchgear

Basic Function

- ❖ Controlling or Switching
- ❖ Protection (Over Load, Short Circuit, Or any Electrical Fault)
- ❖ Status reading (Current, Voltage, Frequency)
- ❖ Power Distribution.

Main Features

- ❖ Readymade & customized solutions for load management.
- ❖ Modular construction & compact size provides economy of space, time & cost.
- ❖ In single door & double door version.
- ❖ Designed for floor mounting / wall mounting
- ❖ Specially designed shrouded busbar provides safety.
- ❖ Number of ways option permits future system expansion.
- ❖ Use of quality raw materials & sourcing from reputed manufacturers.

Elegant & sleek in appearance.

HT Switchgear

High Tension Switchgear

Basic Function

- ❖ High Voltage (11 KV) Controlling or Switching.
- ❖ Protection (Over Load, Short circuit, Earth Fault or any Electrical Fault)
- ❖ Status reading (Current, Voltage, Frequency)

Main Features

- ❖ VCB, LBS, SF6 circuit breaker and switchboards are of optimized design considering Bangladeshi supply condition and ambient.
- ❖ The breaker and switchboard is of compact design, sturdy construction and simple in operation with a proven motorized spring operated mechanism.
- ❖ Design ensure ease of operation, low cost maintenance and higher longevity.
- ❖ Very high quality ring main unit (RMU) suitable for highly populated city like Dhaka for multiple feeders in incoming and outing are used.
- ❖ Equipped with Built-in mechanical interlocks for safety and the breaker compartment is so designed, that it ensure the inter changeability with the identical circuit breakers.
- ❖ The panels are fully compartmentalized and extensible on both sides
- ❖ Adequate air clearance
- ❖ Fixed type & Draw-Out Type.

PFI Plant

Power Factor Improvement Plant.

Benefits

- ❖ Power consumption Reduced
- ❖ Electricity Bills Reduced
- ❖ Electrical energy efficiency improved
- ❖ Extra KVA availability from the existing supply
- ❖ Transformer and distribution equipment losses reduced
- ❖ Voltage drop reductions in long cables.

Main Features

- ❖ Modular design
- ❖ Compact Arrangement
- ❖ Low losses capacitors
- ❖ High Reliability
- ❖ Factory Wired
- ❖ Extensible
- ❖ Low maintenance cost
